

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Rathbone Core Investment for Charities (R Inc)

A sub-fund of Rathbone Core Investment for Charities

Fund Manager: Rathbones Asset Management Limited

R Inc ISIN GBOOBZO2MC60

OBJECTIVES AND INVESTMENT POLICY

We aim to deliver a greater total return than our benchmark (made up of 20% FTSE All-Share Index, 50% FTSE All-World excluding UK Index, 5% Investment Association (IA) UK Direct Property sector, 5% Bank of England Base Rate + 2%, 18% FTSE Actuaries UK Conventional Gilts All Stocks Index and 2% Bank of England Base Rate), after fees, over any rolling five-year period. Total return means the return we receive from the value of our investments increasing (capital growth) plus the income we receive from our investments (interest and dividend payments). We use our benchmark as a target for our fund's return because it represents a diversified, long-term portfolio for charities.

We invest globally in a mixture of shares, bonds with no restriction on their credit quality and specialist funds. We buy UK shares and bonds directly, but most of our overseas assets, specialist strategies, immovable property, commodities and alternatives are held through funds. These funds are either actively managed to meet an objective or passively managed to track a price or index.

We restrict how much of our fund can be invested in different types of assets. These limits are reviewed annually or in response to changes in the market:

Shares (direct and funds) 50%-80%
Bonds (direct and funds) 0%-30%
Alternatives (funds) 0%-20%
Cash 0%-20%

We don't invest directly in any company that manufactures tobacco or tobacco products, or derives more than 10% of its sales from gambling, high-interest-rate lending, pornography or from the manufacture of alcohol or armaments.

We actively manage our fund, which means we can choose what we invest in as long as it's in line with the investment objective and policy. Because of this, our fund's performance can diverge significantly from its benchmarks over shorter periods of time and therefore isn't appropriate for investors who plan to withdraw their money within five years.

Our fund is designed for investors with a basic knowledge of multi-asset funds who seek growth. You should intend to invest for longer than five years, understand the risks of our fund and have the ability to bear a capital loss.

You can buy and sell units on each business day of the fund between 9am and 5pm.

The fund offers accumulation units (units which don't pay out income) and income units (units in which any income received in the fund will be paid to the unitholder).

RISK AND REWARD PROFILE

1

2

3

4

5

6

7

Typically lower rewards

Lower risk

Typically higher rewards

Higher risk

These numbers rate how the Fund may perform and the risk of losing some or all of your investment. In general the potential for higher returns also implies a higher level of risk. However, the lowest category (1) does not mean a risk free investment. The risk category is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time.

The risk indicator for this fund reflects the following:

As an asset class, shares have greater risk than either bonds or money market instruments.

The value of investments in the fund and the income from them may go down as well as up and you may not get back your original investment when you sell your units.

During unusual market conditions, the risks normally experienced by the fund may increase significantly, and in addition, the fund may be subject to the following risks:

Sustainability Risk: Returns could deviate from the market or funds that don't promote environmental or social characteristics, or that don't avoid investments/sectors e.g., oil, tobacco.

Liquidity risk: Some assets become hard to sell at their expected price, especially in times of market stress. This could mean we have to sell assets below their expected price resulting in a loss. In extreme circumstances, we may suspend the fund to protect your investment, resulting in you being unable to access your money.

Counterparty risk: A company that we deal with may renege on its obligations, costing you money.

Management risk: People make the investment decisions for our fund. If they make unfavourable decisions, you could lose money.

Credit risk: Bonds that we own can become more or less creditworthy and will fluctuate in value resulting in gains or losses. Bonds that we own may fail to meet their legal obligations, such as missing an interest payment. This is known as a 'default' and will result in a loss.

Operational risk: We rely on complex systems to ensure that trades are completed, our fund's assets are accounted for and that you can buy or sell our fund. If our systems fail, you could be inconvenienced or lose money.

Interest Rate Risk: Most bonds pay us a fixed amount over an agreed period of time. If interest rates rise these bonds become less valuable and we may be locked into an unfavourable investment. If interest rates fall these bonds become more valuable.

Currency risk: We own assets valued in a currency other than sterling. Changes in the price of foreign currencies can result in gains or losses, even if underlying asset prices stay the same.

CHARGES FOR THIS FUND

The fund manager receives an annual fee, which is included in the ongoing charges shown below. Ongoing charges are the same for all investors in the same class. The charges shown below are based on actual fees and expenses as at the Fund's current year-end or semi-annual period.

Entry Charge	none
Exit Charge	none
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Ongoing Charges	0.52%
