

This is a marketing communication. Please refer to the Prospectus of the UCITS and the KID before making any final investment decisions. The decision to invest in the fund should take into account all the characteristics or objectives of the fund as described in its prospectus.

Rathbone SICAV Ethical Bond Fund

Investment objective

The sub-fund's objective is to seek regular, above-average income. Under normal circumstances, the sub-fund invests mainly in bonds and bond market instruments that meet strict ethical and financial criteria.

The sub-fund may also invest in other securities permitted by UCITS regulations. The sub-fund may use investment techniques and derivatives for efficient portfolio management (including hedging). The sub-fund is classified as an Article 8 financial product under SFDR.

Fund snapshot

The manager runs the benchmark-agnostic sub-fund with a strongly defined view that accounts for economic and political trends, company analysis, and thematic ideas. The investment grade sub-fund targets a high yield with a strong ethical overlay. Once investment themes have been developed, the team carry out credit analysis to find the assets that work best within the thematic framework. Cash flow and strong balance sheets are key in determining bond selection, with the team applying the 'Four Cs Plus' principles: character, capacity, collateral and covenants. The 'Plus' is conviction - that to achieve above-average long-term performance, the team feel they must think differently to the market. After that, an ethical overlay is applied which consists of a negative screening followed by a positive screening.

You should know

Important information

Copies of the Prospectus, the Key Information Document (KID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbones Asset Management Limited.

Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

If you have any doubts about your tax position, or the suitability of this investment, you should seek professional advice.

Interest rate fluctuations are likely to affect the capital value of investments within bond funds. When long term interest rates rise the capital value of shares is likely to fall and vice versa. The effect will be more apparent on funds that invest significantly in long-dated securities. The value of capital and income will fluctuate as interest rates and credit ratings of the issuing companies change.

Further information about the sustainability-related aspects of the sub-fund is available at rathbonesam.com/international/financial-adviser/fixed-income/rathbone-sicav-ethical-bond-fund.

Information notes

If you require clarity on any of the terms used in this factsheet then please refer to our Supplementary Information Document for further explanation.

CET - Central European Time

[†]Mid market value

[^]From April 2018, the ongoing charges figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges. The OCF is included in the Annual or Interim report and are calculated biannually. The OCF is estimated to reflect the expected ongoing expenses.

[†]The historic distribution yield reflects the annualised income net of the expenses in the fund (calculated in accordance with the relevant accounting standards) as a percentage of the mid-market unit price of the fund as at the date shown. It is based on a snapshot of the portfolio on that day. It does not include any initial charge and investors may be subject to tax on their distributions.

^{**}As from 30 June 2016 the fund's year end changed to 30 September.

Source performance data FE fundinfo, price performance based upon bid to bid prior to 21.01.19 and single price (mid) thereafter. This is net of expenses and tax. Data using prices as at 31.03.2024. SICAV L-class units/shares were launched in May 2016. ^{*}Performance is shown for SICAV L-class accumulation shares, which were launched on 20 May 2016, total return net income reinvested. ^{**}Alpha, Beta and Volatility statistics given on a 5 year rolling basis. Alpha and Beta are calculated using the IBOXX Non Gilt Index as the benchmark. Alpha, Beta and Volatility shown is annualised standard deviation of monthly returns.
