

# Rathbone Global Sustainability Fund

## Investment objective

The objective of the fund is to provide a total return in excess of the FTSE World Index over a five year period. Shareholders should be willing and able to commit to an investment of at least five years and preferably longer. The fund is actively managed and will typically hold a relatively concentrated portfolio of global equities, comprising between 30 to 50 holdings. The fund can invest in any transferable securities in all recognised world financial markets, and which meet the fund's sustainability criteria. The fund does not have an income yield target so is likely to provide a variable income yield.

## Fund snapshot

The fund will seek to invest in companies whose activities or ways of operating are aligned with sustainable development and therefore support the achievement of the UN Sustainable Development Goals. We believe that companies displaying strong policies and practices with regard to environmental, social and governance issues are likely to be well-positioned to deliver long-term value creation for investors. The fund will avoid companies creating significant negative impacts that are considered to be incompatible with sustainable development. Whilst there is no income target, there will be a natural bias to cash generative companies.

### Important information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbone Unit Trust Management Limited.

Emerging markets are volatile and may suffer from liquidity problems. Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice.

To meet the investment objective, the fund may also invest, at the Manager's discretion, in other transferable securities, money market instruments, warrants, cash and near cash, deposits and units in collective investment schemes. Use may be made of stocklending, borrowing, cash holdings, hedging and other investment techniques permitted by the FCA Rules.

The annual management charge and other income expenses are paid out of the fund's capital.

### Information notes

^From April 2018, the Ongoing Charges Figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges.
