This dual-priced fund will be switching to single pricing from 21 Jan 2019; reflecting on the February factsheet. For any queries please call us on 0207 399 0399

Rathbone Heritage Fund

Investment objective

The objective of the fund is to provide long-term total returns with a strong focus on capital preservation by mitigating downside risk through a robust investment process (capital preservation is not however guaranteed). The Manager intends to achieve the objective primarily through the purchase of ordinary shares. There are no restrictions on the economic sectors or geographic areas in which the fund may invest. It is likely that the fund will provide a variable income yield.

Fund snapshot

The fund seeks out long-term investments in under-valued businesses that consistently generate cash profits, earn strong returns on capital expenditure and acquisitions, and finance themselves conservatively. The fund is therefore biased towards stock selection, rather than particular industries, regions or investment styles, such as 'growth', 'income' or 'value'. Our discovery process leads us to investments with differing growth ambitions in a variety of industries and across a number of countries. In order not to be distracted by overall market timing, we have created a cash management system where cash levels in the fund are high when the cyclically adjusted price earnings ratio (CAPE) is expensive. That cash can then be deployed when P/E ratios fall.

Fund facts

You should know

Important information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbone Unit Trust Management Limited.

Emerging markets are volatile and may suffer from liquidity problems. Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice.

To meet the investment objective, the fund may also invest, at the Manager's discretion, in other transferable securities, approved money market instruments, warrants, cash and near cash, deposits and units in collective investment schemes. Use may be made of stocklending, borrowing, hedging and other investment techniques permitted by the FCA rules.

As the Manager's annual fee is taken from capital, this will mean that capital may be eroded or growth restricted to the extent of the charge and that, while there may as a result be a reduction in liability for Capital Gains Tax, there will be some increase in Income Tax liability for tax paying unitholders. All other income expenses are paid out of the fund's income.

Derivatives and forward transactions may be used by the fund for investment purposes as well as for the purposes of efficient portfolio management (including hedging). The use of derivatives for investment purposes may increase the volatility of the fund's Net Asset Value and may increase its risk profile.

Information notes

[^]The OCF includes an Annual Management Charge. From April 2018, the Ongoing Charges Figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges.

Source performance data Financial Express, bid to bid, net income re-invested. I-Class Data using prices as at 31.12.2018. Launch date 25 March 13. CPI index data as at 31.12.2018, reported on 04.01.19.

Rathbone Unit Trust Management has achieved a Bronze Rating in the Equity – Global Equities sector by Citywire for their rolling risk-adjusted performance, across all management teams in the sector, over the period 30.12.2011-31.12.2018.
