

# Rathbone UK Opportunities Fund

## Investment objective

The objective of the fund is to achieve capital growth by buying shares in companies whose potential is not appreciated by the market and to sell them when this potential is recognised. The nature of unrecognised potential may be macro, industry, sector or stock specific. Stock selection will involve the identification of a catalyst to drive value creation. The fund has the flexibility to invest in companies of all sizes, primarily companies domiciled, incorporated or having a significant part of their business in the UK, although it may hold up to 20% in shares of European companies. It is benchmarked against the FTSE All-Share index.

## Fund snapshot

This is a bottom-up stock-picking fund that invests in the most exciting growth opportunities listed in the UK. We use our proprietary scorecard to run a concentrated list of 40-50 best ideas from across the FTSE All Share and AIM indices. Our sweet spot is identifying overlooked mid-sized growth companies with scalable, differentiated business models and strong management. We avoid speculative, binary or pre-profitability companies. We aim to offer investors early exposure to long term growth trends. Portfolio construction includes a strong risk overlay and objective sell discipline, with holdings sized according to risk tolerance and liquidity.

## You should know

### Important information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbone Unit Trust Management Limited.

Emerging markets are volatile and may suffer from liquidity problems.

Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this product, you should seek professional advice.

To meet the investment objective, the fund may also invest, at the Manager's discretion, in other transferable securities, money market instruments, warrants, cash and near cash, deposits and units in collective investment schemes. Use may be made of stocklending, borrowing, cash holdings, hedging and other investment techniques permitted by the FCA Rules.

As the Manager's annual fee is taken from capital, this will mean that capital may be eroded or growth restricted to the extent of the charge and that, while there may as a result be a reduction in liability for Capital Gains Tax, there will be some increase in Income Tax liability for tax paying unitholders. All other income expenses are paid out of the fund's income.

### Information notes

\*Income and Accumulation yields may differ for this fund as the figure is expressed as a percentage of the unit price.

†Formerly known as the Rathbone Recovery Fund. The name was changed to Rathbone UK Opportunities Fund on 23 October 2017.

\*From April 2018, the Ongoing Charges Figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges.

Source performance data Financial Express, mid to mid, net income re-invested. This is net of expenses and tax. Data using prices as at 31.03.2019. \*\*Alpha, Beta and Volatility statistics given on a 5 year rolling basis. Alpha and Beta are calculated using the FTSE All-Share Index as the benchmark. Alpha, Beta and Volatility shown is annualised standard deviation of monthly returns. \*\*\*Turnover is calculated on a 1 year rolling basis.
