Manager's report for the year ended 30 June 2021

In the year ended 30 June 2021, our Fund returned 7.86%, while our benchmark, the IA Sterling Strategic Bond sector, made 6.13%.

The period saw big moves in government bond markets. The yield on US 10-year Treasuries (which rises as prices fall) shot up from 0.66% at the start of the period to end it at 1.47%. And the yield on 10-year gilts surged from 0.17% to 0.72%.

Credit spreads – the extra return above government bond yields for taking on the risk of default – narrowed considerably. The iTraxx Crossover European high yield spread index began the period at 383 basis points and finished it at 232 basis points.

To revert to the old football cliché, the past 12-month period really was a game of two halves. It started with much of the developed world firmly in the grip of COVID-19-driven lockdowns and financial markets reflecting intense investor risk aversion. Prices of the safest assets (i.e. government bonds) were very high, while riskier assets (like stocks) remained volatile even if they had tentatively begun to recover from the worst of the COVID doldrums.

Midway through the period, everything began to change. Vaccine breakthroughs allowed the world to start opening up again and economists ratcheted up their growth and inflation forecasts. By early February these suggested that pent-up demand, fuelled by the sizeable savings many accumulated during lockdowns, could lead to a red-hot recovery.

The first turning point came in November 2020 when a raft of highly viable inoculations was announced. This drove government bond yields significantly higher. We felt the market reaction was disproportionate, so we took advantage of the spike in yields to get buying in areas that we had avoided or kept only small holdings in because we thought prices were too steep. Namely, longer-dated 'higher-duration' government bonds whose prices are more sensitive to changes in prevailing yields/interest rates. When yields spiked (prices fell) we bought the UK Treasury 1¼% 2041 and UK Treasury 4.75% 2030. When the yields on these bonds fell back in December, we sold some of them again.

We used that cash to add to our riskier assets. Some of that went towards developing world debt, including the Barings Emerging Markets Debt Blended Total Return and Ninety One Emerging Markets Local Currency Debt funds. With developed world bond yields extremely low, emerging market debt looked like a relatively cheap pocket of value. Some emerging market debt then rallied sharply and we began to sell the Barings and Ninety One funds from early 2021 onwards.

By this stage, several of the world's biggest economies had made decisive moves to reopen as the vaccine rollout had gathered momentum. Bond yields climbed as optimism about an economic rebound grew – alongside expectations that reflation (a recovery in prices as economies got back to full throttle) would soon follow.

In early February, bond investors began to fear that reflation might morph into full-blown inflation, which could drive big central banks to remove stimulus and hike interest rates sooner than expected. (Higher rates can tame rising prices because they make it more expensive to borrow and, therefore, curb propensity to spend.)

This drove a scramble to sell out of government bonds, whose value would decline if rates went up. Selling pressure was most intense at the longer end of government bond markets, leading the yield curve to steepen significantly. That's to say, the yields on longer-dated bonds rose relative to those on shorter-dated bonds. We saw this as no bad thing: a steeper yield curve often signals that the economy is recovering or expanding. We took advantage of yield curve steepening to buy in areas where prices had previously been too expensive, namely, longer-dated government bonds, like the UK Treasury 1 ½% 2047.

Manager's report for the year ended 30 June 2021 *(continued)*

We didn't let the market tumult of early 2021 prevent us from making the most of our active role and exploring new opportunities when they arose. In February, we ventured into new territory for our Fund by buying the iShares China CNY Bond ETF, which invests in Chinese government and policy bank bonds (the latter are issued by government-controlled institutions that lend to official projects). The exchange traded fund provides an accessible way to gain exposure to these bonds, which are now included in one of the world's most important global bond indices. China is a highly rated sovereign and these bonds offer an attractive yield relative to high-quality alternatives. We added to this purchase in May.

By April, the government bond selloff had begun to ease even though inflation data stayed on the boil. The 10-year Treasury yield settled into a narrowish range of below 1.50% where it broadly stayed through to the end of June, way below its 2021 peak of around 1.78%. Yields seemed to steady because bond investors started to accept the US Federal Reserve's (Fed) oft-repeated insistence that the inflation spike would prove "transitory".

At its June policy-setting meeting, the Fed acknowledged that inflation and growth were coming in higher than it had expected. But it stressed that it wanted to see substantial progress in repairing pandemic-inflicted labour market damage before pencilling in interest rate rises. The Fed conceded that it was gearing up to kick off discussion on when to slow the pace of its quantitative easing (QE) bond purchases. This would be a first step in reining in its easy policies as QE helps keep a lid on bond yields.

By the end of the period, it felt like we were in 'wait-and-see' mode. The recovery rebound (and attendant inflationary pressures) may begin to ease back a bit - or they might keep hotting up. Whatever happens, bond investors seem more confident in central bankers' insistence that eventual policy tightening is going to be slow and gradual, and also signalled well ahead of time.

As ever, we've stayed focused on adding to opportunities that we believe will benefit our Fund's long-term return and income potential. We've allowed a little cash to build up so that we can swiftly put it to work when we find particularly compelling opportunities. Towards the end of the period we have been paring back our exposure to some longer duration bonds most sensitive to yield/rate changes, like the UK Treasury 1½% 2047. Longer-dated debt could prove particularly vulnerable if prolonged bouts of market volatility break out in future.

Notes to the financial statements

1 Accounting policies

a) Basis of accounting

The annual financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Statement of Recommended Practice (SORP) for Financial Statements of UK Authorised Funds issued by The Investment Association in May 2014, and as amended in June 2017.

As stated in the Statement of the Manager's responsibilities in relation to the report and accounts of the Company on page 32, the Manager continues to adopt the going concern basis in the preparation of the financial statements of the fund.

b) Recognition of revenue

All dividends including distributions from collective investment schemes on investments marked ex-dividend up to the accounting date are included in revenue inclusive of any tax deducted at source and net of attributable tax credits. Bank and other interest receivable is accrued up to the accounting date, and this forms part of the distribution.

Revenue on debt securities has been accounted for on an effective interest method.

Revenue received from investments in authorised collective investment schemes, which are purchased during the financial year, will include an element of equalisation which represents the average amount of revenue included in the price paid for shares or units. The equalisation is treated as capital and deducted from the cost of the investment.

Management fee rebates arising from the holding of units or shares in underlying funds are recognised on an accrual basis. Where the policy of the underlying fund is to charge its management fee to capital, in determining its distributions, then the management fee rebates are recognised in capital. Otherwise, the management fee rebates are recognised in revenue.

c) Treatment of scrip and special dividends

Any stock received in lieu of cash dividends is credited to capital in the first instance, followed by a transfer to revenue of the cash equivalent being offered, and this forms part of the distribution made by the fund.

Special dividends are treated as revenue or capital depending on the facts of each particular case.

d) Treatment of expenses

All expenses are charged against capital.

e) Distribution policy

Revenue arising from the fund's investments accumulates during each accounting period. If, at the end of the accounting period, revenue exceeds expenses, the net revenue of the fund is available to be distributed to unitholders.

For the purpose of calculating the distribution available to unitholders, all the expenses are deducted from capital, offsetting expenses against capital may constrain future growth in revenue and capital. For the purpose of calculating the distribution available to unitholders, revenue on debt securities is computed as the higher of the amount determined on an accrual of coupon basis and on an effective yield basis. A reconciliation of the net distribution to the net revenue of the fund as reported total return is shown in note 6.

In order to conduct a controlled dividend flow to unitholders, interim distributions will be made at the Managers' discretion, up to a maximum of the distributable revenue available for the year. All remaining revenue is distributed in accordance with the regulations.

f) Basis of valuation of investments

The quoted investments of the fund have been valued at the closing bid-market prices excluding any accrued interest in the case of debt securities ruling on the principal markets on which the stocks are quoted on the last business day of the accounting year. If no market price is available we use two different vendors (at least one being independent) to obtain a price and verify it against.

If the Stock Exchange quotation of an investment has been suspended, and in the opinion of the Manager, it is unlikely to be reinstated, this has been indicated in the portfolio of investments. Suspended investments are value based on the latest financial statements of the respective company and agreed with the Trustee.

Authorised collective investment schemes are valued at the bid price for dual price funds and at the quoted price for single price funds.

1 Accounting policies *(continued)*

During the year the fund entered into derivative transactions in the form of forward foreign currency contracts. For forward foreign currency contracts, market value is determined by reference to forward currency exchange rates at the year end.

All assets are recognised and derecognised on trade date. Any trades occurring between valuation point and close of business are included in the financial statements.

Unquoted investments are valued at fair value, which represents the Manager's view of the amount for which an asset could be exchanged between knowledgeable and willing parties in an arm's length transaction. This does not assume that the underlying business is saleable at the reporting date or that its current shareholders have an intention to sell their holding in the near future.

The unquoted investments are valued by the Manager based upon information from an independent valuation firm, taking into account, where appropriate, latest dealing prices, achievement or not of key milestones, valuations from reliable sources, financial performance, and other relevant factors.

g) Exchange rates

The functional currency of the fund is pound sterling. Transactions in foreign currencies are recorded in sterling at the rate ruling at the date of the transactions. Assets and liabilities expressed in foreign currencies at the end of the accounting year are translated into Sterling at the closing mid exchange rates ruling on that date.

h) Taxation/Deferred tax

i) Corporation tax is provided for at 20% on taxable revenue, after deduction of expenses.

ii) Where overseas tax has been deducted from taxable overseas revenue, that tax can, in some instances, be set off against the corporation tax payable by the fund, by way of double taxation relief.

iii) The charge for deferred tax is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is provided using the liability method on all timing differences, calculated at the rate at which it is anticipated the timing differences will reverse. Deferred tax assets are recognised only when, on the basis of available evidence, it is more likely than not that there will be taxable profits in the future against which the deferred tax assets can be offset. Deferred tax assets and liabilities are not discounted to reflect the time value of money.

i) Unit classes rights on termination, allocation of tax and distributable income

The fund may be terminated if an order declaring the fund to be an authorised unit trust scheme is revoked, or the Financial Conduct Authority (FCA) determines to revoke the order at the request of the Trustee or the Manager. In the case of a reconstruction or an amalgamation of the fund with another body or trust, on the passing of an extraordinary resolution of holders of units approving the amalgamation. The Trustee shall wind up the fund in accordance with that resolution.

On the termination of the fund in any other case, the Trustee shall sell the investments, and out of the proceeds of the sale shall settle the fund's liabilities and pay the costs and expenses of the winding up before distributing the proceeds of the realisation to unitholders and the Manager proportionally to their respective interests in the fund. Any unclaimed proceeds or cash held by the Trustee after the expiration of 12 months from the date on which the same became payable shall be paid by the Trustee into court subject to the Trustee having a right to retain any expenses incurred by it in making such payment into court. On the completion of the winding-up the trustee must notify the FCA to revoke the relevant authorisation order.

Allocation of tax and distributable income is done proportionally to the unitholders respective interests in the fund.

Notes to the financial statements *(continued)*

2 Net capital gains/(losses)

5 Taxation

	30.06.21	30.06.20
	£	£
a) Analysis of charge in the year		
Overseas tax	1,344	1,837
Total tax charge for the year (note 5b)	1,344	1,837

b) Factors affecting current tax charge for the year

The tax assessed for the year is lower (2020: lower) than the standard rate of corporation tax in the UK for an Authorised Unit Trust (20%) (30.06.20: 20%). The differences are explained below:

	30.06.21	30.06.20
	£	£
Net revenue before taxation	6,451,497	5,409,252
Corporation tax at 20%	1,290,299	1,081,850
Effects of:		
Revenue not subject to taxation	(144,127)	(53,795)
Tax deductible interest distributions	(1,092,215)	(1,016,520)
Tax relief on Index Linked Gilts	(53,957)	(11,535)
Corporate tax charge	—	—
Overseas tax	1,344	1,837
Total tax charge for the year (note 5a)	1,344	1,837

c) Deferred tax

At the year end the fund had no surplus management expenses (30.06.20: £nil) and no deferred tax asset has been recognised.

6 Distributions

The distributions take account of amounts received on the issue of units and amounts deducted on the cancellation of units, and comprise:

	30.06.21	30.06.20
	£	£
First Interim	1,785,167	1,358,286
Second Interim	1,849,998	1,751,132
Third Interim	1,513,276	1,609,515
Final	2,502,734	1,669,285
	7,651,175	6,388,218
Add: Amounts deducted on cancellation of units	106,348	281,362
Deduct: Amounts received on issue of units	(238,672)	(201,509)
Net distribution for the year	7,518,851	6,468,071

Reconciliation of net distribution for the year to net revenue after tax:

Net distribution for the year	7,518,851	6,468,071
Expenses charged to capital:		
Manager's periodic charge	(965,665)	(965,400)
Trustee fee	(40,558)	(40,547)
Audit fee	(12,000)	(10,800)
Safe custody fee	(18,047)	(19,343)
Administration fee	(22,356)	(11,932)
Printing and publication costs	(2,272)	(2,363)
Registration fee	(7,606)	(9,056)

10 Related party transactions

Management fees paid to Rathbone Unit Trust Management Limited (the Manager) are disclosed in note 4 and amounts outstanding at the year end in note 8.

Details of units created and cancelled by the Manager are shown in the Statement of Change in Net Assets Attributable to Unitholders and note 6.

There were no commissions paid to stockbroking of the Manager in respect of dealings in the investments of Rathbone Strategic Bond Fund during the year (30.06.20: nil).

All other amounts paid to or received from the related parties, together with the outstanding balances are disclosed in the financial statements.

At the year end there were significant unitholders. Rathbone Nominees Limited held a total of 32% (30.06.20: 38%).

11 Contingent liabilities and commitments

There were no contingent liabilities or outstanding commitments at the balance sheet date (30.06.20: nil).

12 Risk disclosures on financial instruments

In pursuing the investment objective a number of financial instruments are held which may comprise securities and other investments, cash balances and debtors and creditors that arise directly from operations, for example, in respect of sales and purchases awaiting settlement, amounts receivable for creations and payable for liquidations and debtors for accrued revenue.

There is little exposure to credit or cash flow risk. There are no net borrowings and little exposure to liquidity risk because assets can be readily realised to meet redemptions.

The fund holds a substantial number of Collective Investment Schemes that are designed to give overseas exposure. The fund has indirect exposure to foreign currency risk, interest rate risk and credit risk as a result of these holdings (see the portfolio statement on pages 7 to 13).

The main risks arising from the financial instruments are:

(i) **Foreign currency risk**, being the risk that the value of investments will fluctuate as a result of exchange rate movements. The value of the fund's underlying investments will be affected by movements in exchange rate against sterling, in respect of non-sterling denominated rates.

The table below shows the foreign currency risk profile at the balance sheet date:

	30.06.21	30.06.20
	£	£
Currency:		
Australian dollar	527,069	—
Euro	11,986,083	2,213,171
US dollar	33,274,947	10,042,232
Pound sterling	162,360,656	156,734,051
	208,148,755	168,989,454
Other net assets not categorised as financial instruments	226	—
Net assets	208,148,981	168,989,454

If GBP to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the fund would have decreased by £4,162,575 (30.06.20: £1,361,711). If GBP to foreign currency exchange rates had decreased by 10% as at the balance sheet date, the net asset value of the fund would have increased by £5,087,592 (30.06.20: £1,114,128). These calculations assume all other variables remain constant.

12 Risk disclosures on financial instruments *(continued)*

(ii) **Interest rate risk**, being the risk that the value of investments will fluctuate as a result of interest rate changes.

The table below shows the interest rate risk profile at the balance sheet date:

	30.06.21	30.06.20
	£	£
Fixed rate assets:		
Australian dollar	521,589	–
Euro	5,412,066	399,266
US dollar	12,827,293	4,015,846
Pound sterling	41,205,125	37,706,905
	59,966,073	42,122,017
Floating rate assets:		
Euro	4,188,682	324,328
US dollar	12,248,307	2,767,760
Pound sterling	57,002,819	47,094,323
	73,439,808	50,186,411
Assets on which no interest is paid:		
Australian dollar	5,480	–
Euro	2,392,184	1,528,738
US dollar	9,180,031	4,709,816
Pound sterling	65,538,490	74,063,275
	77,116,185	80,301,829
Liabilities on which no interest is paid:		
Euro	(6,849)	(39,161)
US dollar	(980,684)	(1,451,190)
Pound sterling	(1,385,778)	(2,130,452)
	(2,373,311)	(3,620,803)
Other net assets not categorised as financial instruments	226	–
Net assets	208,148,981	168,989,454

If interest rates had increased by 1% as at the balance sheet date, the net asset value of the fund would have decreased by £25,570,135 (30.06.20: £10,005,925). If interest rates had decreased by 1% as at the balance sheet date, the net asset value of the fund would have increased by £25,570,135 (30.06.20: £10,005,925). These calculations assume all other variables remain constant.

The floating rate financial assets and liabilities comprise bank balances, floating rate securities and index linked bonds that earn or pay interest at rates linked to the UK base rate or its international equivalents.

12 Risk disclosures on financial instruments *(continued)*

(ii) Interest rate risk *(continued)*

	30.06.21		30.06.20	
	Value (note 1f) £	Percentage of total net assets	Value (note 1f) £	Percentage of total net assets
Bond credit ratings				
Investment grade	67,679,001	32.51	45,936,638	27.18
Below investment grade	54,346,852	26.11	43,145,535	25.53
Total bonds	122,025,853	58.62	89,082,173	52.71

There are no material amounts of non-interest bearing financial assets and liabilities, other than equities and collective investment schemes, which do not have maturity dates.

(iii) **Market price risk**, being the risk that the value of investment holdings will fluctuate as a result of changes in market prices caused by factors other than currency or interest rate movements.

The investment portfolio is exposed to market price fluctuations which are monitored by the Manager in pursuance of the investment objective and policy set out in the Prospectus. Adherence to investment guidelines and to investment and borrowing powers set out in the Trust Deed and Prospectus and the rules of the FCA's Collective Investment Scheme Sourcebook mitigates the risk of excessive exposure to any particular type of security or issuer.

If market prices had increased by 10% as at the balance sheet date the net asset value of the fund would have increased by £19,625,716 (30.06.20: £15,986,527). If market prices had decreased by 10% as at the balance sheet date the net asset value of the fund would have decreased by £19,625,716 (30.06.20: £15,986,527). These calculations assume all other variables remain constant.

(iv) **Counterparty risk**, being the risk that the counterparty will not deliver the investments for a purchase, or the cash for a sale after the fund has fulfilled its responsibilities.

(v) **Fair value**. There is no material difference between the carrying value and fair value of the financial instruments disclosed in the balance sheet.

(vi) **Leverage**. In accordance with the IA SORP issued in May 2014 we are required to disclose any leverage of the fund. There is no significant leverage in Rathbone Strategic Bond which would increase its exposure.

Total sales net of commission and taxes	276,331,473				

Commissions and taxes as % of average net assets

Commissions	0.00%
Taxes	0.00%

In the case of shares, commissions and taxes are paid by the fund on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments. Unlike shares, other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment. At the balance sheet date the dealing spread was 0.59% (30.06.20: 0.63%).

14 Fair value of investments

The fair value of investments has been determined using the following hierarchy:

- Level 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

15 Unit price movement since the balance sheet date

Subsequent to the year end, the net asset value per unit of the fund has increased using the unit prices at the year end date compared to 17 August 2021. This movement takes into account routine transactions but also reflects the market movements of recent months. There are no post balance sheet events which require adjustments.

Notes for corporate unitholders

Corporate unitholders should read the important information on the reverse of the tax voucher in respect of this distribution. The relevant information required by a corporate unitholder is as follows:

Franked investment income	0.00%
Unfranked investment income	100.00%
Depository net liability to corporation tax	nil pence per unit

Equalisation

Equalisation applies only to units purchased during the distribution period (Group 2 units). It represents the accrued revenue included in the purchase price of the units. After averaging it is returned with the distribution as a capital repayment. It is not liable to Income Tax but must be deducted from the cost of the units for Capital Gains Tax purposes.

Directors' statement

This report is approved in accordance with the requirements of the Financial Conduct Authority's Collective Investment Schemes Sourcebook.

MM Webb JR Chillingworth
for Rathbone Unit Trust Management Limited
Manager of Rathbone Strategic Bond Fund
27 August 2021

Statement of the Manager's responsibilities in relation to the annual report and accounts of the Rathbone Strategic Bond Fund

The Financial Conduct Authority's Collective Investment Schemes Sourcebook requires the Manager to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the fund and of the net revenue and of the net capital gains or losses on the property of the fund for that year. In preparing those financial statements, the Manager is required to:

1. select suitable accounting policies, as described in the attached financial statements, and then apply them consistently;
2. make judgements and estimates that are reasonable and prudent;
3. comply with the disclosure requirements of the SORP relating to financial statements of UK authorised funds issued by The Investment Association;
4. follow UK generally accepted accounting principles, including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Statement of Recommended Practice: 'Financial Statements of UK Authorised Funds' issued by The Investment Association in May 2014;
5. prepare the financial statements on the going concern basis unless it is inappropriate to presume that the fund will continue in operation; and
6. keep proper accounting records which disclose with reasonable accuracy at any time the financial position of the Scheme and which enable it to demonstrate that the financial statements as prepared comply with the above requirements.

The Manager is responsible for the management of the scheme in accordance with its Trust Deed, Prospectus and the Financial Conduct Authority's Collective Investment Schemes Sourcebook and for the system of internal controls and for safeguarding the assets of the Scheme. The Manager has general responsibility for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the Manager is aware:

1. there is no relevant audit information of which the fund's auditor is unaware; and
2. the Manager has taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information; and
3. the Manager is of the opinion that it is appropriate to continue to adopt the going concern basis in the preparation of the financial statements as the assets of the fund consist predominantly of securities that are readily realisable and, accordingly, the fund has adequate resources to continue in operational existence for the foreseeable future.

The Manager has considered the activities of the fund together with the factors likely to affect its future development, including those related to the COVID-19 pandemic. The assets of the Rathbone Strategic Bond Fund consist predominantly of cash and liquid securities that are readily realisable and therefore has adequate resources to continue in operational existence for the foreseeable future. The Manager has also considered the impact of the COVID-19 pandemic on the operations of the AFM and material third party service providers which continue to be maintained and fully functioning. Accordingly, the Manager continues to adopt the going concern basis in the preparation of the financial statements.

In accordance with COLL 4.5.8 R, the Annual Report and the audited financial statements were approved by the board of directors of the ACD of the Scheme and authorised for issue on 27 August 2021.

Statement of the Trustee's responsibilities and report of the Trustee to the unitholders of Rathbone Strategic Bond Fund (the Scheme) for the year ended 30 June 2021

The Trustee must ensure that the Scheme is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together 'the Regulations'), the Trust Deed and Prospectus (together 'the Scheme documents') as detailed below.

The Trustee must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Scheme and its investors.

The Trustee is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Scheme in accordance with the Regulations.

The Trustee must ensure that:

1. the Scheme's cash flows are properly monitored and that cash of the Scheme is booked into the cash accounts in accordance with the Regulations;
2. the sale, issue, redemption and cancellation of units are carried out in accordance with the Regulations;
3. the value of units in the Scheme is calculated in accordance with the Regulations;
4. any consideration relating to transactions in the Scheme's assets is remitted to the Scheme within the usual time limits;
5. the Scheme's income is applied in accordance with the Regulations; and
6. the instructions of the Authorised Fund Manager ('the AFM') are carried out (unless they conflict with the Regulations).

The Trustee also has a duty to take reasonable care to ensure that the Scheme is managed in accordance with the Regulations and the Scheme documents in relation to the investment and borrowing powers applicable to the Scheme.

Having carried out such procedures as we consider necessary to discharge our responsibilities as Trustee of the Scheme, it is our opinion, based on the information available to us and the explanations provided, that in all material respects the Scheme, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Scheme's units and the application of the Schemes income in accordance with the Regulations and the Scheme documents, and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Scheme.

NatWest Trustee and Depository Services Limited
Trustee of Rathbone Strategic Bond Fund
27 August 2021

Independent Auditor's Report to the unitholders of Rathbone Strategic Bond Fund

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of Rathbone Strategic Bond Fund (the "fund"):

- give a true and fair view of the financial position of Rathbone Strategic Bond Fund as at 30 June 2021 and of the net revenue and the net capital gains on the property of the fund for the year ended 30 June 2021; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", the Statement of Recommended Practice "Financial Statements of UK Authorised Funds", the rules in the Collective Investment Schemes Sourcebook and the Trust Deed.

We have audited the financial statements of the fund which comprise:

- the statement of total return;
- the statement of change in net assets attributable to shareholders;
- the balance sheet;
- the distribution tables; and
- Individual notes 1 to 15.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice), the Statement of Recommended Practice: "Financial Statements of UK Authorised Funds" issued by the Investment Association in May 2014, the Collective Investment Schemes Sourcebook and the Trust Deed.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the manager with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The manager is responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Independent Auditor's Report to the unitholders of Rathbone Strategic Bond Fund *(continued)*

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of trustee and manager

As explained more fully in the trustee's responsibilities statement and the manager's responsibilities statement, the trustee is responsible for the safeguarding the property of the fund and the manager is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the manager is responsible for assessing the fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the manager either intends to liquidate the fund or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error

and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the fund's industry and its control environment, and reviewed the fund's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management about their own identification and assessment of the risks of irregularities.

We obtained an understanding of the legal and regulatory frameworks that the fund operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included the Collective Investment Schemes Sourcebook and relevant tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the fund's ability to operate or to avoid a material penalty.

We discussed among the audit engagement team including relevant internal specialists such as valuations and IT specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

Independent Auditor's Report to the Unitholders of Rathbone Strategic Bond Fund *(continued)*

As a result of performing the above, we identified the greatest potential for fraud in the valuation and existence of investments. In response we have: involved our financial instruments specialists to assess the applied valuation methodologies; agreed investment holdings to independent confirmations; and agreed investment valuations to reliable independent sources.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reviewing correspondence with HMRC and the FCA.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Collective Investment Schemes Sourcebook

In our opinion:

- proper accounting records for the Fund and its sub-fund have been kept and the financial statements are in agreement with those records;
- we have received all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit; and
- the information disclosed in the annual report for the year ended 30 June 2021 for the purpose of complying with Paragraph 4.5.9R of the Collective Investment Schemes Sourcebook is consistent with the financial statements.

Use of our report

This report is made solely to the fund's unitholders, as a body, in accordance with Paragraph 4.5.12R of the Collective Investment Schemes Sourcebook of the Financial Conduct Authority. Our audit work has been undertaken so that we might state to the fund's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the fund and the fund's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

General information

UCITS Remuneration

In line with the requirements of the UCITS Directive, Rathbone Unit Trust Management Limited (the Manager) has adopted a remuneration policy which is consistent with the remuneration principles applicable to UCITS management companies. Its purpose is to ensure that the remuneration of the staff of the Manager is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles of the Manager and the UCITS that it manages and does not impair the Manager's compliance with its duty to act in the best interests of the UCITS it manages. The remuneration policy applies to staff of the Manager whose professional activities have a material impact on the risk profile of the Manager or the UCITS that it manages (known as Remuneration Code Staff).

The aggregate remuneration paid by the Manager to its staff, and to those staff who are identified as Remuneration Code Staff, is disclosed below.

	Fixed remuneration £'000	Variable remuneration £'000	Total remuneration £'000	Headcount
Senior Management	1,355	5,459	6,814	6
Risk takers	1,422	3,318	4,740	14
Control functions	274	33	307	3
Other	115	159	274	1
Total remuneration code staff	3,166	8,969	12,135	24
Non-remuneration code staff	837	315	1,152	21
Total for the Manager	4,003	9,284	13,287	45

The variable remuneration disclosed in the table above is for the financial year ended 31 December 2020, which is the most recent period for which data are available. Variable remuneration is determined annually based on, inter alia, the results of the Manager and the investment performance of the UCITS that it manages for discrete annual periods ending on 31 December each year. Consequently, it is not possible to apportion the variable award between calendar years.

Authorised status

The Rathbone Strategic Bond Fund is an authorised unit trust scheme, authorised by the Financial Conduct Authority on 20 June 2007 and launched on 3 October 2011.

It is a 'UCITS Scheme' authorised under Section 243 of the Financial Services and Markets Act 2000, and the currency of the fund is pound sterling.

Investment objective

We aim to deliver a greater total return than the Investment Association (IA) Sterling Strategic Bond sector, after fees, over any rolling five-year period. Total return means the return we receive from the value of our investments increasing (capital growth) plus the income we receive from our investments (interest payments). We use the IA Sterling Strategic Bond sector as a target for our fund's return because we aim to achieve a better return than the average of funds that are similar to ours.

We aim to deliver this return with a lower volatility than the IA Sterling Strategic Bond sector. As an indication, the value of our fund should be expected to fluctuate less than the sector. Because we measure volatility over a five-year period, some falls may be larger or smaller over shorter periods of time. We aim to limit the amount of volatility risk our fund can take because we want our investors to understand the risk they are taking compared to funds similar to ours.

Investment strategy

When picking our investments, there are three assessments we make. First, we look at the economic environment to determine which industries we want to own and the duration of our investments. Then we use the Four Cs Plus approach to evaluate creditworthiness. We assess:

Character: Whether a company's managers have integrity and competence

Capacity: Ensuring a company isn't over-borrowing and has the cash to pay its debts

Collateral: Are there assets backing the loan, which reduces the risk of a loan

Covenants: These loan agreements set out the terms of the bond and restrictions on the company

Conviction: The Plus: We think differently to the market; sometimes contrarian, sometimes sceptical of orthodox thinking, but always opinionated

Finally, we compare prices to determine the best value bonds to include in our fund.

Investment policy

To meet the objective, the fund manager will invest in government and corporate bonds, with no restriction on their credit quality. Up to 10% of the fund can be invested directly in contingent convertible bonds. The fund will also use a mixture of specialist funds and direct investment in bonds, with no limits on either.

The fund manager defines restrictions on how much of the fund can be invested in different types of bonds. The restrictions are set at the discretion of the fund manager and will change over time. The restrictions are reviewed annually and in response to market events. Further details in relation to the current restrictions may be obtained by contacting Rathbone Unit Trust Management.

The fund may invest globally but at least 80% of the portfolio will be invested in sterling denominated assets or hedged back to sterling.

Derivatives may be used by the fund for investment purposes, efficient portfolio management and hedging. The use of derivatives for investment purposes may increase the volatility of the fund's Net Asset Value and may increase its risk profile.

The manager may use all investment powers as permitted by the prospectus, outside the ranges described above, to ensure the fund is managed in the best interest of investors in times of market irregularities or stress.

Valuation of the fund

The fund is valued on each business day at 12 noon for the purpose of determining prices at which units in the fund may be bought or sold. Valuations may be made at other times on business days with the Trustee's approval.

Stewardship code

Rathbone Unit Trust Management Limited fully supports the UK Stewardship Code sponsored by the Financial Reporting Council. Our statement on complying with the Code can be found on our website: rathbonefunds.com

Buying and selling of units

The Manager is available to receive requests for the buying and selling of units on normal business days between 9.00am and 5.00pm and transactions will be effected at prices determined by the next valuation. Application forms for the purchase of units (obtainable from the Manager) should be completed and sent to the dealing office. In respect of telephoned orders, remittances should be sent on receipt of the contract note. Contract notes confirming transactions will be issued by the close of business on the next business day after the dealing date. Purchasers of units are required to enter their registration details on the form supplied with their contract note. Once units are paid for these details will be entered on the unit register.

Units can be sold by telephone, fax or letter followed by despatch to the dealing office of the authorisation to sell duly completed by all unitholders.

In the absence of clear written instructions signed by all the registered holders, a Form of Renunciation will be sent out together with the repurchase contract note. This will need to be signed by all registered holders, and returned to our dealing office before settlement can be made. Settlement will be made on whichever is the later of four business days after the dealing date or four days after the receipt of written confirmation.

Unitholders may sell units on submitting the purchase contract note and a duly executed Deed of Transfer. The issue and redemption of units will not take place if dealing in the units is suspended by operation of law or any statute for the time being in place.

The minimum initial investment for units at present is to the value of £1,000 which may be varied by the Manager. Thereafter holders may invest additional amounts to the value of £500 or more from time to time as they wish. Any number of units may be subscribed, sold or transferred so long as transaction complies with applicable minimums.

There is no preliminary charge for I-class units.

The Manager currently receives an annual remuneration for managing the I-class property of the fund at the rate of 0.50%.

Statements

A distribution statement showing the rate per unit and your unit holding will be sent half yearly on the 28 February and 31 August.

The current value of your units is shown on a valuation statement, which shows the number of units bought over the previous six months, the total number of units in your account and their current value.

Twice yearly on the last day in February and 31 August, unitholders will receive a consolidated statement showing, where applicable, their unit trust, ICVC and ISA holdings for each fund held.

Prices

Prices are available on our website rathbonefunds.com

Other information

You can see the Trust Deed, the Key Investor Information Document, the Supplementary Information Document, the Prospectus and the most recent half yearly report of each fund by visiting the registered offices of the Manager. Copies of the Prospectus, Key Investor Information Document, Supplementary Information Document and the most recent half yearly report of each fund may be obtained free of charge on application to the Manager.

The Register of Unitholders can be inspected during normal business hours at the office of the Registrar, SS&C Financial Services International Limited, SS&C House, St Nicholas Lane, Basildon, Essex SS15 5FS.

General information *(continued)*

Further copies of this report are available upon request, free of charge, from Client Services Department, Rathbone Unit Trust Management Limited, 8 Finsbury Circus, London EC2M 7AZ.

If you have any queries or complaints about the operation of the fund you should put them to the Compliance Officer, Rathbone Unit Trust Management Limited, 8 Finsbury Circus, London EC2M 7AZ. Any complaint we receive will be handled in accordance with our internal complaint procedures. A copy of these are available from the Compliance Officer.

If you have occasion to complain, and in the unlikely event that you do not receive a satisfactory response, you may direct your complaint to the Financial Ombudsman Service at Exchange Tower, London E14 9SR. Further details about the Financial Ombudsman Service are available on their website at financial-ombudsman.org.uk.

ISA eligibility

The fund has been managed throughout the year to ensure that it is eligible to qualify and be included in an Individual Savings Account (ISA). The fund will at all times be invested in such a way that the units will constitute 'Qualifying Investments' for the purposes of the individual Savings Account (ISA) Regulations 1998, as amended from time to time.

Risk factors

An investment in a unit trust should be regarded as a medium to long term investment. Investors should be aware that the price of units and the revenue from them can fall as well as rise and investors may not receive back the full amount invested. Past performance should not be seen as an indication of future performance. Investments denominated in currencies other than the base currency are subject to fluctuation in exchange rates, which can be favourable or unfavourable.
