Manager's report for the year ended 30 September 2021

In the year to 30 September 2021, our fund gained 29.4%, outpacing the FTSE All-Share Index's 27.9%, yet lagging the IA UK Equity Income sector average of 32.7%.

We are pleased to announce a final distribution of 23.86p per share (estimated, Institutional Income Units). This is 28% higher than the final payment last year, and contributes to an 18% increase in the full year distribution.

It has been a whirlwind year as the world has come to terms, in fits and starts, with COVID-19. Optimism generated by the introduction of vaccines early in the period gave way to not a little weariness as realisation dawned that inoculation wasn't a silver bullet. Over the months since, several waves of the pandemic have washed around the world. We have now settled down to a sort of resignation that we all must live with the virus, for the next winter or so at least.

Stop-start reopenings and renewed outbreaks in Asia have caused all manner of shortages in labour, goods and energy. Refreshed demand from households and businesses has driven inflation higher around the world. In the UK, this inflation combined with a faster-than-expected economic bounce back has led the Bank of England to openly ponder the possibility of raising interest rates quicker. Meanwhile, the UK market continues to trade at a significant discount to overseas counterparts. We believe the FTSE's dividend recovery has only just begun, and that many UK companies offer great value compared to their peers across the waves.

While we deem the argument for UK value to be compelling, our performance has been middle of the road compared to our sector this year. This is frustrating and, to be honest, a little surprising because, from a corporate point of view, we have had a good run of news, with very few shocks. The dividend story has come through very much as we had hoped. In absolute terms, performance is fine; but relative to our peers, perhaps underwhelming.

There has been a lot more volatility within the equity income sector as a whole over the past year. Those funds with greater 'quality' and 'growth' biases have had a far harder time, but they at least made hay before then. On the other hand, after a long period of pressure, deep 'value' has finally come good. We've been pragmatic in our approach, looking to tilt meaningfully towards 'cyclicality' and value over the last 18 months. This has certainly paid off, but our risk-based approach has maybe dampened rewards. This is no bad thing because we never intend to put all our chips on red or black, but it's a tad frustrating nevertheless.

The last six months have seen much of the world start to emerge from the grip of COVID-19 on the back of huge vaccination programmes. Investor sentiment has pivoted from misery to optimism about the prospect of a sustained economic recovery as life starts to get back to something approaching normal.

As we grew more confident that an industrial and manufacturing recovery beckoned in early 2021, we initiated new holdings in construction and industrial equipment rental company Ashtead and global valve manufacturer IMI. Conversely, as we added to exposure likely to benefit from a great reopening, we opted to trim our holdings in so-called 'COVID beneficiaries' – stocks boosted by pandemic-specific conditions. One of these was consumer staples giant Unilever. We believed that too much emphasis was being placed on the strength of its pandemic-driven sales (like hand sanitisers and other hygiene products) and not enough scrutiny afforded to its inadequacies, especially with regard to capital allocation. Having peaked in October 2020, Unilever's share price has reversed meaningfully versus the FTSE All-Share. In a further move out of defensive stocks expected to generate highly predictable earnings even in difficult conditions, we sold our holding in tobacco group Imperial Brands in February 2021.

Manager's report for the year ended 30 September 2021 *(continued)*

We also trimmed our holding in iron ore and copper mining giant BHP to crystallise some gains, very much wary of the potential impact of its upcoming primary listing in Australia. It also helped us rebalance the portfolio for dividend planning. Meanwhile, we said goodbye to UDG Healthcare, which we sold on news of the recommended offer for the shares by a private equity bidder.

Late in the period, we started to build more positions in economically sensitive businesses. One of these was banking group Barclays, which should benefit from a steeper yield curve in the UK (i.e. long-term interest rates rising faster than short-term ones). Very simply, banks make money from the difference between the short-term interest rates they pay out to depositors (today, virtually nothing) and the long-term rates they charge on mortgages and personal and commercial loans (much better than nothing). With prevailing interest rates heading higher, that bodes well for their future profits. Furthermore, Barclays' more global investment business complements the pure domestic exposure of our other holdings in Lloyds and NatWest.

We added recruitment business PageGroup because it affords economic leverage in a varied way through the vibrant employment market. Its board is sufficiently confident in the excess cash it's generating to have reinstated its interim dividend, up 9% from 2019, and also to declare a special dividend. And it's paid back £3.4 million of furlough money. We are mindful that staffing agencies have a reputation for over-distribution. But this is a sure sign of confidence that we don't believe the market is fully valuing.

Another economically sensitive addition was housebuilder Taylor Wimpey. Part of the cash going towards Taylor Wimpey came from selling its rival Berkeley Group. This was a decision established upon pragmatism over dividend payments, with the latter currently favouring share repurchases over straightforward dividends. On balance, we marginally increased our exposure to the UK house building industry over the period.

Outlook

The undoubted win for us in the final quarter of the accounting period has been the income that our portfolio has generated. Early in 2020 we pivoted to focus on capital preservation, allowing our distribution to unitholders to settle at the

appropriate level (-20.5% versus the market's -40%). The tilt back towards value and cyclicity since last summer has resulted in a healthy recovery in income flow as miners have paid out bumper cash flows, oils surprised and financials got back on the dividend payments list (should they ever have been off it?). Meanwhile, global distributor Bunzl has paid an extra dividend in the past 12 months to make up for one lost last year, and consumer-facing stocks, such as our housebuilders and retailer Halfords, have also rewarded shareholders for their patience and loyalty. While we are keenly aware that 'special' dividends are by definition generally not repeated, we are hopeful that this year's strong rebound will stretch to inflation-beating growth next year.

UK GDP soared in the second quarter of 2021, job vacancies exceeded 1 million for the first time, the housing market is very strong, and recently published data shows the UK economy finally surpassing its pre-pandemic level. Yet the UK stock market remains unloved and valuations are at bargain basement levels. UK shares are 'ON SALE!'

Of course, there are clouds to these silver linings: supply chains are a big headache and inflationary pressures could over-cook. Does the labour force have the right skills to match the vacancies? How successful will we be at living with COVID? And what happens to sterling if the UK takes on more debt? On balance, we believe the value of the UK market offsets these clear and present challenges. If investors want income, if people want to supplement their earnings with their investments, if savers are frustrated at basement level savings rates, if property funds offer the threat of being locked in, if fixed income markets look too risky at current levels, surely the UK equity market should at least be considered as a viable option? Yes, of course, there are risks: there always are. But the attraction of this market is the deep discount it offers because it is so unloved. We believe it makes these risks worth taking.

Notes to the financial statements

1 Accounting policies

a) Basis of accounting

The annual financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Statement of Recommended Practice (SORP) for Financial Statements of UK Authorised Funds issued by The Investment Association in May 2014, and as amended in June 2017.

As stated in the Statement of the Manager's responsibilities in relation to the report and accounts of the Company on page 32, the Manager continues to adopt the going concern basis in the preparation of the financial statements of the fund.

There are no significant judgments or sources of estimation uncertainty.

b) Recognition of revenue

All dividends on investments marked ex-dividend up to the accounting date are included in revenue inclusive of any tax deducted at source and net of attributable tax credits. Bank and other interest receivable is accrued up to the accounting date, and this forms part of the distribution.

c) Treatment of scrip and special dividends

Any stock received in lieu of cash dividends is credited to capital in the first instance, followed by a transfer to revenue of the cash equivalent being offered, and this forms part of the distribution made by the fund.

Special dividends are treated as revenue or capital depending on the facts of each particular case.

d) Treatment of expenses

All expenses (other than direct costs of purchase and sale of investments) are charged against revenue.

e) Distribution policy

Revenue arising from the fund's investments accumulates during each accounting period. If, at the end of the accounting period, revenue exceeds expenses, the net revenue of the fund is available to be distributed to unitholders.

For the purpose of calculating the distribution available to unitholders, the Manager's charge is deducted from capital, offsetting expenses against capital may constrain future growth in revenue and capital.

A reconciliation of the net distribution to the net revenue of the fund as reported total return is shown in note 6.

In order to conduct a controlled dividend flow to unitholders, interim distributions will be made at the Managers' discretion, up to a maximum of the distributable revenue available for the year. All remaining revenue is distributed in accordance with the regulations.

f) Basis of valuation of investments

The quoted investments of the fund have been valued at the closing bid-market prices excluding any accrued interest in the case of debt securities ruling on the principal markets on which the stocks are quoted on the last business day of the accounting year. If no market price is available we use two different vendors (at least one being independent) to obtain a price and verify it against.

If the Stock Exchange quotation of an investment has been suspended, and in the opinion of the Manager, it is unlikely to be reinstated, this has been indicated in the portfolio of investments. Suspended investments are valued based on the latest financial statements of the respective company and agreed with the Trustee.

All assets are recognised and derecognised on trade date. Any trades occurring between valuation point and close of business are included in the financial statements.

g) Exchange rates

The functional currency of the fund is pound sterling. Transactions in foreign currencies are recorded in sterling at the rate ruling at the date of the transactions. Assets and liabilities expressed in foreign currencies at the end of the accounting year are translated into Sterling at the closing mid exchange rates ruling on that date.

1 Accounting policies *(continued)*

h) Taxation/Deferred tax

i) Corporation tax is provided for at 20% on taxable revenue, after deduction of expenses.

ii) Where overseas tax has been deducted from taxable overseas revenue, that tax can, in some instances, be set off against the corporation tax payable by the fund, by way of double taxation relief.

iii) The charge for deferred tax is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is provided using the liability method on all timing differences, calculated at the rate at which it is anticipated the timing differences will reverse. Deferred tax assets are recognised only when, on the basis of available evidence, it is more likely than not that there will be taxable profits in the future against which the deferred tax assets can be offset. Deferred tax assets and liabilities are not discounted to reflect the time value of money.

i) Unit classes rights on termination, allocation of tax and distributable income

The fund may be terminated if an order declaring the fund to be an authorised unit trust scheme is revoked, or the Financial Conduct Authority (FCA) determines to revoke the order at the request of the Trustee or the Manager. In the case of a reconstruction or an amalgamation of the fund with another body or trust, on the passing of an extraordinary resolution of holders of units approving the amalgamation. The Trustee shall wind up the fund in accordance with that resolution.

On the termination of the fund in any other case, the Trustee shall sell the investments, and out of the proceeds of the sale shall settle the fund's liabilities and pay the costs and expenses of the winding up before distributing the proceeds of the realisation to unitholders and the Manager proportionally to their respective interests in the fund. Any unclaimed proceeds or cash held by the Trustee after the expiration of 12 months from the date on which the same became payable shall be paid by the Trustee into court subject to the Trustee having a right to retain any expenses incurred by it in making such payment into court. On the completion of the winding-up the trustee must notify the FCA to revoke the relevant authorisation order.

Allocation of tax and distributable income is done proportionally to the unitholders respective interests in the fund.

Notes to the financial statements *(continued)*

2 Net capital gains/(losses)

	30.09.21	30.09.20
	£	£
The net capital gains/(losses) during the year comprise:		
Non-derivative securities	175,007,340	(213,370,058)
Capital special dividends	186,940	—
Currency (losses)/gains	(101,294)	138,905
Transaction charges	(1,515)	(1,306)
Net capital gains/(losses)	175,091,471	(213,232,459)

3 Revenue

	30.09.21	30.09.20
	£	£
Dividends – UK Ordinary	30,583,297	30,575,588
– Overseas	4,569,419	5,105,658
– Property income distributions	448,000	479,700
Bank interest	—	144,546
Total revenue	35,600,716	36,305,492

4 Expenses

	30.09.21	30.09.21	30.09.20	30.09.20
	£	£	£	£
Payable to the Manager, associates of the Manager and agents of either of them:				
Manager's periodic charge		6,673,881		7,597,504
Payable to the Trustee, associates of the Trustee and agents of either of them:				
Trustee's fees	136,972		149,528	
Safe custody and other bank charges	66,081		73,283	
		203,053		222,811
Other expenses:				
Administration fees	6,633		5,444	
Audit fee*	11,040		10,920	
Listing fee	3,530		3,540	
Printing and publication costs	2,592		1,647	
Registration fees	46,496		66,339	
		70,291		87,890
Total expenses		6,947,225		7,908,205

* Audit fees for 2021 are £9,200 excluding VAT (30.09.20: £8,850 excluding VAT).

5 Taxation

	30.09.21	30.09.20
	£	£
a) Analysis of charge in the year		
Irrecoverable overseas tax	299,010	417,851
Reclaimable tax writeoff	—	91,389
Windfall overseas tax recoveries	—	(30,463)
Total tax charge for the year (note 5b)	299,010	478,777

b) Factors affecting current tax charge for the year

The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an Authorised Unit Trust (20%) (30.09.20: 20%). The differences are explained below.

	30.09.21	30.09.20
	£	£
Net revenue before taxation	28,653,491	28,397,287
Corporation tax at 20%	5,730,698	5,679,457
Effects of:		
Revenue not subject to taxation	(7,030,543)	(7,136,249)
Current year expenses not utilised	1,299,845	1,456,792
Corporate tax charge	—	—
Irrecoverable overseas tax	299,010	417,851
Reclaimable tax writeoff	—	91,389
Windfall overseas tax recoveries	—	(30,463)
Total tax charge for the year (note 5a)	299,010	478,777

c) Deferred tax

At the year end the fund had surplus management expenses of £153,059,103 (30.09.20: £146,559,878). It is unlikely that the fund will generate sufficient taxable profits in the future to utilise these expenses and, therefore, a deferred tax asset of £30,611,820 (30.09.20: £29,311,975) has not been recognised in the financial statements.

6 Distributions

The distributions take account of amounts received on the issue of units and amounts deducted on the cancellation of units, and comprise:

	30.09.21	30.09.20
	£	£
Interim	12,465,489	14,849,568
Final	21,340,792	18,878,263
	33,806,281	33,727,831
Add: Amounts deducted on cancellation of units	1,507,220	2,186,619
Deduct: Amounts received on issue of units	(102,196)	(209,598)
Net distribution for the year	35,211,305	35,704,852

Reconciliation of net distribution for the year to net revenue after tax:

Net distribution for the year	35,211,305	35,704,852
Expenses charged to capital:		
Administration fees	(6,633)	(5,444)
Audit fee	(11,040)	(10,920)
Listing fee	(3,530)	(3,540)
Manager's periodic charge	(6,673,881)	(7,597,504)
Printing and publication costs	(2,592)	(1,647)
Registration fees	(46,496)	(66,339)
Safe custody and other bank charges	(66,081)	(73,283)
Trustee's fees	(136,972)	(149,528)
Equalisation on conversions	(351)	(279)
Tax relief on expenses	89,600	124,849
Balance brought forward	(2,296)	(5,003)
Balance carried forward	3,448	2,296
Net revenue after taxation	28,354,481	27,918,510

7 Debtors

Unit movements 01.10.20 to 30.09.21				
Units issued	179,568	27,781	213,453	263,990
Units cancelled	(1,046,114)	(733,288)	(4,522,690)	(3,554,674)
Units converted	(214,799)	(50,774)	237,730	58,856
Closing units issued at 30.09.21	7,500,164	3,646,058	24,119,084	17,489,879

	S-class income	S-class accumulation
Opening units issued at 01.10.20	9,386,441	4,962,209
Unit movements 01.10.20 to 30.09.21		
Units issued	90,991	99,065
Units cancelled	(1,361,795)	(740,534)
Units converted	(36,998)	(12,068)
Closing units issued at 30.09.21	8,078,639	4,308,672

10 Related party transactions

Management fees paid to Rathbone Unit Trust Management Limited (the Manager) are disclosed in note 4 and amounts outstanding at the year end in note 8.

Details of units created and cancelled by the Manager are shown in the Statement of Change in Net Assets Attributable to Unitholders and note 6.

There were no commissions paid to stockbroking of the Manager in respect of dealings in the investments of Rathbone Income Fund during the year (30.09.20: nil).

All other amounts paid to or received from the related parties, together with the outstanding balances are disclosed in the financial statements.

At the year end there were no significant unitholders (30.09.20: nil).

11 Contingent liabilities and commitments

There were no contingent liabilities or outstanding commitments at the balance sheet date (30.09.20: nil).

12 Risk disclosures on financial instruments

In pursuing the investment objective a number of financial instruments are held which may comprise securities and other investments, cash balances and debtors and creditors that arise directly from operations, for example, in respect of sales and purchases awaiting settlement, amounts receivable for creations and payable for liquidations and debtors for accrued revenue.

There is little exposure to credit or cash flow risk. There are no net borrowings and little exposure to liquidity risk because assets can be readily realised to meet redemptions.

The fund does not make use of derivatives.

The main risks arising from the financial instruments are:

(i) **Foreign currency risk**, being the risk that the value of investments will fluctuate as a result of exchange rate movements. The value of the fund's underlying investments will be affected by movements in exchange rate against sterling, in respect of non-sterling denominated rates.

The table below shows the foreign currency risk profile at the balance sheet date:

	30.09.21	30.09.20
	£	£
Currency:		
Danish krone	76,290	80,425
Euro	40,087,503	41,314,878
Swiss franc	21,767,814	23,758,319
US dollar	20,600,734	15,893,688
Pound sterling	723,390,871	667,345,193
	805,923,212	748,392,503
Other net assets not categorised as financial instruments	1,284,003	1,079,553
Net assets	807,207,215	749,472,056

If GBP to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the fund would have decreased by £7,502,940 (30.09.20: £7,367,937). If GBP to foreign currency exchange rates had decreased by 10% as at the balance sheet date, the net asset value of the fund would have increased by £9,170,260 (30.09.20: £9,005,257). These calculations assume all other variables remain constant.

12 Risk disclosures on financial instruments *(continued)*

(ii) **Interest rate risk**, being the risk that the value of investments will fluctuate as a result of interest rate changes.

The table below shows the interest rate risk profile at the balance sheet date:

	30.09.21	30.09.20
	£	£
Floating rate assets:		
Pound sterling	38,650,499	34,644,417
Assets on which no interest is paid:		
Danish krone	76,290	80,425
Euro	40,087,503	41,314,878
Swiss franc	21,767,814	23,758,319
US dollar	20,600,734	15,893,688
Pound sterling	695,832,589	643,825,607
	778,364,930	724,872,917
Liabilities on which no interest is paid:		
Pound sterling	(11,092,217)	(11,124,831)
	(11,092,217)	(11,124,831)
Other net assets not categorised as financial instruments	1,284,003	1,079,553
Net assets	807,207,215	749,472,056

Due to the proportion of interest bearing assets held within the portfolio, no sensitivity analysis has been prepared illustrating the impact changes in yields would have on the value of the fund's portfolio.

The floating rate financial assets and liabilities comprise bank balances, that earn or pay interest at rates linked to the UK base rate or its international equivalents.

There are no material amounts of non-interest bearing financial assets and liabilities, other than equities and collective investment schemes, which do not have maturity dates.

(iii) **Market price risk**, being the risk that the value of investment holdings will fluctuate as a result of changes in market prices caused by factors other than currency or interest rate movements.

The investment portfolio is exposed to market price fluctuations which are monitored by the Manager in pursuance of the investment objective and policy set out in the Prospectus. Adherence to investment guidelines and to investment and borrowing powers set out in the Trust Deed and Prospectus and the rules of the FCA's Collective Investment Scheme Sourcebook mitigates the risk of excessive exposure to any particular type of security or issuer.

If market prices had increased by 10% as at the balance sheet date the net asset value of the fund would have increased by £77,583,657 (30.09.20: £71,972,160). If market prices had decreased by 10% as at the balance sheet date the net asset value of the fund would have decreased by £77,583,657 (30.09.20: £71,972,160). These calculations assume all other variables remain constant.

12 Risk disclosures on financial instruments *(continued)*

(iv) **Counterparty risk**, being the risk that the counterparty will not deliver the investments for a purchase, or the cash for a sale after the fund has fulfilled its responsibilities.

(v) **Fair value**. There is no material difference between the carrying value and fair value of the financial instruments disclosed in the balance sheet.

(vi) **Leverage**. In accordance with the IA SORP issued in May 2014 we are required to disclose any leverage of the fund. There is no significant leverage in Rathbone Income Fund which would increase its exposure.

13 Portfolio transaction cost

For the year ended 30 September 2021

Analysis of total purchase costs

Commissions and taxes as % of average net assets

Commissions	0.02%
Taxes	0.08%

In the case of shares, commissions and taxes are paid by the fund on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments. Unlike shares, other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment. At the balance sheet date the dealing spread was 0.05% (30.09.20: 0.06%).

14 Fair value of investments

The fair value of investments has been determined using the following hierarchy:

- Level 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

Notes for corporate unitholders

Corporate unitholders should read the important information on the reverse of the tax voucher in respect of this distribution. The relevant information required by a corporate unitholder is as follows:

Franked investment income	100.00%
Unfranked investment income	0.00%
Depository net liability to corporation tax	nil pence per unit

Equalisation

Equalisation applies only to units purchased during the distribution period (Group 2 units). It represents the accrued revenue included in the purchase price of the units. After averaging it is returned with the distribution as a capital repayment. It is not liable to Income Tax but must be deducted from the cost of the units for Capital Gains Tax purposes.

Directors' statement

This report is approved in accordance with the requirements of the Financial Conduct Authority's Collective Investment Schemes Sourcebook.

MM Webb **JR Chillingworth**
for Rathbone Unit Trust Management Limited
Manager of Rathbone Income Fund
16 December 2021

Statement of the Manager's responsibilities in relation to the annual report and financial statements of the scheme

The Financial Conduct Authority's Collective Investment Schemes Sourcebook requires the Manager to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the fund and of the net revenue and of the net capital gains or losses on the property of the fund for that year. In preparing those financial statements, the Manager is required to:

1. select suitable accounting policies, as described in the attached financial statements, and then apply them consistently;
2. make judgements and estimates that are reasonable and prudent;
3. comply with the disclosure requirements of the SORP relating to financial statements of UK authorised funds issued by The Investment Association;
4. follow UK generally accepted accounting principles, including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Statement of Recommended Practice: 'Financial Statements of UK Authorised Funds' issued by The Investment Association in May 2014;
5. prepare the financial statements on the going concern basis unless it is inappropriate to presume that the fund will continue in operation; and
6. keep proper accounting records which disclose with reasonable accuracy at any time the financial position of the Scheme and which enable it to demonstrate that the financial statements as prepared comply with the above requirements.

The Manager is responsible for the management of the scheme in accordance with its Trust Deed, Prospectus and the Financial Conduct Authority's Collective Investment Schemes Sourcebook, and for the system of internal controls and for safeguarding the assets of the scheme. The Manager has general responsibility for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the Manager is aware:

1. there is no relevant audit information of which the fund's auditor is unaware;
2. the Manager has taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information; and
3. the Manager is of the opinion that it is appropriate to continue to adopt the going concern basis in the preparation of the financial statements as the assets of the fund consist predominantly of securities that are readily realisable and, accordingly, the fund has adequate resources to continue in operational existence for the foreseeable future.

The Manager has considered the activities of the fund together with the factors likely to affect its future development, including those related to the COVID-19 pandemic. The assets of the Income Fund consist predominantly of cash and liquid securities that are readily realisable and therefore has adequate resources to continue in operational existence for the foreseeable future. The Manager has also considered the impact of the COVID-19 pandemic on the operations of the AFM and material third party service providers which continue to be maintained and fully functioning. Accordingly, the Manager continues to adopt the going concern basis in the preparation of the financial statements.

In accordance with COLL 4.5.8 R, the Annual Report and the audited financial statements were approved by the board of directors of the Manager of the Scheme and authorised for issue on 16 December 2021.

Statement of the Trustee's responsibilities and report of the Trustee to the unitholders of Rathbone Income Fund (the Scheme) for the year ended 30 September 2021

The Trustee must ensure that the Scheme is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together the Regulations), the Trust Deed and Prospectus (together the Scheme documents) as detailed below.

The Trustee must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Scheme and its investors.

The Trustee is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Scheme in accordance with the Regulations.

The Trustee must ensure that:

1. the Scheme's cash flows are properly monitored and that cash of the Scheme is booked into the cash accounts in accordance with the Regulations;
2. the sale, issue, redemption and cancellation of units are carried out in accordance with the Regulations;
3. the value of units in the Scheme is calculated in accordance with the Regulations;
4. any consideration relating to transactions in the Scheme's assets is remitted to the Scheme within the usual time limits;
5. the Scheme's income is applied in accordance with the Regulations; and
6. the instructions of the Authorised Fund Manager (the AFM) are carried out (unless they conflict with the Regulations).

The Trustee also has a duty to take reasonable care to ensure that the Scheme is managed in accordance with the Regulations and the Scheme documents in relation to the investment and borrowing powers applicable to the Scheme.

Having carried out such procedures as we consider necessary to discharge our responsibilities as Trustee of the Scheme, it is our opinion, based on the information available to us and the explanations provided, that in all material respects the Scheme, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Scheme's units and the application of the Scheme's income in accordance with the Regulations and the Scheme documents, and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Scheme.

NatWest Trustee and Depository Services Limited
Trustee of Rathbone Income Fund
16 December 2021

Independent Auditor's Report to the unitholders of Rathbone Income Fund

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of Rathbone Income Fund (the "fund"):

- give a true and fair view of the financial position of Rathbone Income Fund as at 30 September 2021 and of the net revenue and the net capital gains on the property of the fund for the year ended 30 September 2021; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", the Statement of Recommended Practice "Financial Statements of UK Authorised Funds", the rules in the Collective Investment Schemes Sourcebook and the Trust Deed.

We have audited the financial statements of the fund which comprise:

- the statement of total return;
- the statement of change in net assets attributable to shareholders;
- the balance sheet;
- the distribution tables; and
- Individual notes 1 to 15.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice), the Statement of Recommended Practice: "Financial Statements of UK Authorised Funds" issued by the Investment Association in May 2014, the Collective Investment Schemes Sourcebook and the Trust Deed.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the manager with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The manager is responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Independent Auditor's Report to the unitholders of Rathbone Income Fund *(continued)*

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of trustee and manager

As explained more fully in the trustee's responsibilities statement and the manager's responsibilities statement, the trustee is responsible for the safeguarding the property of the fund and the manager is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the manager is responsible for assessing the fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the manager either intends to liquidate the fund or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it

exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the fund's industry and its control environment, and reviewed the fund's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management about their own identification and assessment of the risks of irregularities.

We obtained an understanding of the legal and regulatory frameworks that the fund operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included the Collective Investment Schemes Sourcebook and relevant tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the fund's ability to operate or to avoid a material penalty.

We discussed among the audit engagement team including relevant internal specialists such as valuations and IT specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

Independent Auditor's Report to the unitholders of Rathbone Income Fund *(continued)*

As a result of performing the above, we identified the greatest potential for fraud in the valuation and existence of investments. In response we have: involved our financial instruments specialists to assess the applied valuation methodologies; agreed investment holdings to independent confirmations; and agreed investment valuations to reliable independent sources.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reviewing correspondence with HMRC and the FCA

Report on other legal and regulatory requirements

Opinion on other matters prescribed by the

In our opinion:

- proper accounting records for the Fund and its sub-fund have been kept and the financial statements are in agreement with those records;
- we have received all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit; and
- the information disclosed in the annual report for the year ended 30 April 2021 for the purpose of complying with Paragraph 4.5.9R of the Collective Investment Schemes Sourcebook is consistent with the financial statements.

Use of our report

This report is made solely to the fund's unitholders, as a body, in accordance with Paragraph 4.5.12R of the Collective Investment Schemes Sourcebook of the Financial Conduct Authority. Our audit work has been undertaken so that we might state to the fund's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the fund and the fund's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Deloitte LLP
Statutory Auditor
Glasgow, United Kingdom

General information

UCITS Remuneration

In line with the requirements of the UCITS Directive, Rathbone Unit Trust Management Limited (the Manager) has adopted a remuneration policy which is consistent with the remuneration principles applicable to UCITS management companies. Its purpose is to ensure that the remuneration of the staff of the Manager is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles of the Manager and the UCITS that it manages and does not impair the Manager's compliance with its duty to act in the best interests of the UCITS it manages. The remuneration policy applies to staff of the Manager whose professional activities have a material impact on the risk profile of the Manager or the UCITS that it manages (known as Remuneration Code Staff).

The aggregate remuneration paid by the Manager to its staff, and to those staff who are identified as Remuneration Code Staff, is disclosed below.

	Fixed remuneration £'000	Variable remuneration £'000	Total remuneration £'000	Headcount
Senior Management	1,650	5,459	7,109	6
Risk takers	1,761	3,318	5,079	14
Control functions	336	33	369	3
Other	142	159	301	1
Total remuneration code staff	3,889	8,969	12,858	24
Non-remuneration code staff	1,077	315	1,392	21
Total for the Manager	4,966	9,284	14,250	45

The variable remuneration disclosed in the table above is for the financial year ended 31 December 2020, which is the most recent period for which data are available. Variable remuneration is determined annually based on, inter alia, the results of the Manager and the investment performance of the UCITS that it manages for discrete annual periods ending on 31 December each year. Consequently, it is not possible to apportion the variable award between calendar years.

Authorised status

The Rathbone Income Fund is an authorised unit trust scheme, established by a Trust Deed dated 12 February 1971 and launched in February 1971.

It is a 'UCITS Scheme' authorised under Section 243 of the Financial Services and Markets Act 2000, and the currency of the fund is pounds sterling.

Investment objective, policy and strategy

The objective of the fund is to deliver an annual income that is in line with or better than that of the FTSE All-Share Index over any rolling three-year period. The fund also aims to increase income payments in line with the CPI measure of inflation over any rolling five-year period. The fund aims to generate a greater total return than the FTSE All-Share Index, after fees, over any five-year period. There is no guarantee that this investment objective will be achieved over five years, or any other time period. We use the FTSE All-Share Index as a target for our fund's return and the income we pay because we want to offer you a better income and higher returns than the UK stock market. Increasing your income payments at least in line with the CPI measure of inflation protects your future spending power.

To meet the objective, the fund manager will invest at least 80% of our fund in UK-listed shares, with the remainder in global shares, cash, short-term deposits and UK government debt. Derivatives may be used by the fund for the purposes of efficient portfolio management and hedging. The manager may use all investment powers as permitted by the prospectus, outside the ranges described above, to ensure the fund is managed in the best interest of investors in times of market irregularities or stress. The fund may invest at the fund manager's discretion in other transferable securities, money market instruments, warrants, cash and near cash and deposits and units in collective investment schemes. Use may be made of stock lending, borrowing, cash holdings, hedging and other investment techniques permitted by the FCA Rules.

This is a stock-picking fund, which means we invest in a small number of UK-listed stocks. We invest in businesses which offer the best investment opportunities at the most attractive prices. When choosing investments we use our own trinity of risk framework: price, business and financial. We look for businesses that offer good value and make strong and consistent profits with high quality earnings – those that are backed by real cash rather than accounting contrivance. Companies shouldn't have more debt than they can handle. We buy these companies because we believe they should grow generate good earnings backed by cash over many years. A healthy cash flow gives companies the flexibility to repay debts, reinvest in their businesses, and pay a dividend that increases over time.

Valuation of the fund

The fund is valued on each business day at 12 noon for the purpose of determining prices at which units in the fund may be bought or sold. Valuations may be made at other times on business days with the Trustee's approval.

Stewardship code

Rathbone Unit Trust Management Limited fully supports the UK Stewardship Code sponsored by the Financial Reporting Council.

Buying and selling of units

The Manager is available to receive requests for the buying and selling of units on normal business days between 9.00am and 5.00pm and transactions will be effected at prices determined by the next valuation. Application forms for the purchase of units (obtainable from the Manager) should be completed and sent to the Dealing Office. In respect of telephoned orders, remittances should be sent on receipt of the contract note. Contract notes confirming transactions will be issued by the close of business on the next business day after the dealing date. Purchasers of units are required to enter their registration details on the form supplied with their contract note. Once units are paid for, these details will be entered on the unit register.

General information *(continued)*

Units can be sold by telephone, fax or letter followed by despatch to the Dealing Office of the authorisation to sell duly completed by all unitholders.

In the absence of clear written instructions signed by all the registered holders, a Form of Renunciation will be sent out together with the repurchase contract note. This will need to be signed by all registered holders, and returned to our Dealing Office before settlement can be made. Settlement will be made on whichever is the later of four business days after the dealing date or four days after the receipt of written confirmation.

Unitholders may sell units on submitting the purchase contract note and a duly executed Deed of Transfer. The issue and redemption of units will not take place if dealing in the units is suspended by operation of law or any statute for the time being in place.

The minimum initial investment for the R-class is £100,000,000. The minimum initial investment for I-class units is £1,000. The minimum initial investment for S-class units is £100,000,000. Thereafter holders may invest additional amounts to the value of £500 or more from time to time as they wish. Any number of units may be subscribed, sold or transferred so long as transaction complies with applicable minimums.

There is no preliminary charge for R-class, I-class or S-class units.

The Manager currently receives an annual remuneration for managing the R-class property of the fund at the rate of 1.50%.

The Manager currently receives an annual remuneration for managing the I-class property of the fund at the rate of 0.75%.

The Manager currently receives an annual remuneration for managing the S-class property of the fund at the rate of 0.49%.

Statements

A distribution statement showing the rate per unit and your unit holding will be sent semi-annually on 31 May and 30 November.

The current value of your units is shown on a valuation statement, which shows the number of units bought over the previous six months, the total number of units in your account and their current value.

Twice yearly on 30 June and 31 December, unitholders will receive a consolidated statement showing, where applicable, their Unit Trust, ICVC and ISA holdings for each fund held.

Prices

Prices are available on our website rathbonefunds.com

Other information

You can see the Trust Deed, the Key Investor Information Document and Supplementary Information Document, the Prospectus and the most recent half yearly report of each fund at the registered offices of the Manager. Copies of the Prospectus, the Key Investor Information Document and Supplementary Information Document and the most recent half yearly report of each fund may be obtained free of charge on application to the Manager.

The Register of Unitholders can be inspected during normal business hours at the office of the Registrar, SS&C Financial Services International Limited, SS&C House, St Nicholas Lane, Basildon, Essex SS15 5FS.

Further copies of this report are available upon request, free of charge, from Client Services Department, Rathbone Unit Trust Management Limited, 8 Finsbury Circus, London EC2M 7AZ.

If you have any queries or complaints about the operation of the fund you should put them to the Compliance Officer, Rathbone Unit Trust Management Limited, 8 Finsbury Circus, London EC2M 7AZ. Any complaint we receive will be handled in accordance with our internal complaint procedures. A copy of these are available from the Compliance Officer.

If you have occasion to complain, and in the unlikely event that you do not receive a satisfactory response, you may direct your complaint to the Financial Ombudsman Service at Exchange Tower, London E14 9SR. Further details about the Financial Ombudsman Service are available on their website at financial-ombudsman.org.uk.

ISA eligibility

The fund has been managed throughout the year to ensure that it is eligible to qualify and be included in an Individual Savings Account (ISA). The fund will at all times be invested in such a way that the units will constitute 'Qualifying Investments' for the purposes of the Individual Savings Account (ISA) Regulations 1998, as amended from time to time.

Risk factors

An investment in a unit trust should be regarded as a medium to long term investment. Investors should be aware that the price of units and the income from them can fall as well as rise and investors may not receive back the full amount invested. Past performance should not be seen as an indication of future performance. Investments denominated in currencies other than the base currency are subject to fluctuation in exchange rates, which can be favourable or unfavourable. Where periodic charge is wholly or partly taken out of the fund's capital, distributable income will be increased at the expense of capital which will either be eroded or future growth restrained.

Value Assessment

Our regulator, the Financial Conduct Authority (FCA), has asked us to assess the value of our funds. Assessing value is much more than just looking at the fees you pay or the performance of your fund in isolation. Considering this, we have designed an assessment which looks at nine criteria.

We have also appointed an independent research firm, Square Mile Investment Consulting & Research, to provide an impartial report on the value our funds offer compared with the market.

It is the responsibility of our board of directors to consider the outcomes of these assessments, ensure they are clear and fair, and then communicate to you, our investors, if we have delivered value or, if not, where we need to improve.

You can view the value assessments for the Funds four months after their period end on our website rathbonefunds.com
