

Rathbone SICAV Multi-Asset Enhanced Growth Portfolio

Investment objective

The sub-fund's objective is to deliver a greater total return than the United Kingdom's Consumer Price Index (CPI) measure of inflation +5%, after fees, over any rolling five-year period by investing with the Liquidity, Equity-type risk and Diversifier assets (LED) framework developed by the investment manager. The sub-fund aims to deliver this return with no more volatility than that of the FTSE Developed Market Index. There is no guarantee that the sub-fund will achieve a positive return over this, or any other, period and you may not get back the original amount you invested.
