

# Rathbone SICAV Ethical Bond Fund

## Investment objective

The sub-fund's objective is to seek regular, above-average income. Under normal circumstances, the sub-fund invests mainly in bonds and bond market instruments that meet strict ethical and financial criteria.

The sub-fund may also invest in other securities permitted by UCITS regulations. The sub-fund may use investment techniques and derivatives for efficient portfolio management (including hedging).

## Fund snapshot

The manager runs the benchmark-agnostic sub-fund with a strongly defined view that accounts for economic and political trends, company analysis, and thematic ideas. The investment grade sub-fund targets a high yield with a strong ethical overlay. Once investment themes have been developed, the team carry out credit analysis to find the assets that work best within the thematic framework. Cash flow and strong balance sheets are key in determining bond selection, with the team applying the 'Four Cs Plus' principles: character, capacity, collateral and covenants. The 'Plus' is conviction - that to achieve above-average long-term performance, the team feel they must think differently to the market. After that, an ethical overlay is applied which consists of a negative screening followed by a positive screening.

### Important information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbone Unit Trust Management Limited.

Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

If you have any doubts about your tax position, or the suitability of this investment, you should seek professional advice.

Interest rate fluctuations are likely to affect the capital value of investments within bond funds. When long term interest rates rise the capital value of shares is likely to fall and vice versa. The effect will be more apparent on funds that invest significantly in long-dated securities. The value of capital and income will fluctuate as interest rates and credit ratings of the issuing companies change.

\*Mid market value

\*From April 2018, the ongoing charges figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges.

\*The historic distribution yield reflects the annualised income net of the expenses in the fund (calculated in accordance with the relevant accounting standards) as a percentage of the mid-market unit price of the fund as at the date shown. It is based on a snapshot of the portfolio on that day. It does not include any initial charge and investors may be subject to tax on their distributions.

\*\*As from 30 June 2016 the fund's year end changed to 30 September.
