# Rathbone Total Return Portfolio

## Investment objective

The objective of the fund is to deliver a greater total return than the Bank of England's Base Rate +2%, after fees, over any three-year period by investing with our Liquidity, Equity-type risk and Diversifiers (LED) framework. The fund aims to deliver this return with no more than one-third of the volatility of the FTSE Developed stock market Index.

There is no guarantee that this investment objective will be achieved over three years, or any other time period.

We aim to deliver this return with no more than one-third of the volatility of the FTSE Developed stock market Index. We aim to limit the amount of volatility risk our fund can take because we want our investors to understand the risk they are taking in terms of the global stock market.

### Important information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbone Unit Trust Management Limited.

The use of derivatives for investment purposes may increase the volatility of a sub-fund's net asset value and may increase its risk profile.

Emerging markets are volatile and may suffer from liquidity problems. Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice.

As the Manager's annual fee is taken from capital, that capital may be eroded or growth restricted to the extent of the charge and that, while there may as a result be a reduction in liability for Capital Gains Tax, there will be some increase in Income Tax liability for tax paying shareholders.

### Information notes

^The OCF includes the charges for the underlying funds held in the product. From April 2018, the ongoing charges figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges.
