

# Rathbone SICAV Multi-Asset Total Return Portfolio

## Investment objective

The sub-fund's objective is to deliver a greater total return (+2% after fees) than the Bank of England's Base Rate, over any three-year period by investing with the Liquidity, Equity-type risk and Diversifiers assets (LED) framework developed by the investment manager.

The sub-fund aims to deliver this return with no more than one-third of the volatility of the FTSE Developed Markets Index. There is no guarantee that the sub-fund will achieve a positive return over this, or any other, period and you may not get back the original amount you invested.
